

2017 International Workshop on Konservat-Lagerstätten

University College Cork, Ireland | 15th – 16th July 2017

<http://lagerstaetten.ucc.ie/>

CALL FOR ABSTRACTS: **EXTENDED DEADLINE 31st JUNE 2017**

This workshop will explore frontier research on Konservat-Lagerstätten, with a full day of talks and posters and a second day of workshop sessions.

We invite contributions on any aspect of the palaeobiology, taphonomy, and sedimentological context of Konservat-Lagerstätten, including palaeoecology, geochemistry, morphology, evolution, taphonomic experiments, stratigraphy, sedimentology and new fossil discoveries.

Photo: Dr J. Jepson

Workshops include:

- **Palaeoproteomics**
- **Experimental taphonomy**
- **X-ray absorption spectroscopy**
- **Synchrotron-CT**
- **Taphonomic data analysis**
- **Electron microscopy**

We look forward to seeing you in Cork for an exciting weekend of science and networking!
